

FORRESTVILLE VALLEY SCHOOL DISTRICT #221

SUPERINTENDENT
Mrs. Sheri Smith

ELEMENTARY CLASS SIZE PROVISION

Effective 2015-2016 School Year

The FVEA appreciates and values the opportunity to engage in dialogue regarding an elementary class size provision. It is the intent of the FVEA to be partners with the BOE and Administration in engaging in dialogue and creating a plan to address elementary class size concerns in a manner that is beneficial to students, staff and the district. The Board of Education and the FVEA will support reasonable teacher to student ratios within the district's financial abilities. When an elementary grade level class exceeds twenty-nine (29) students, dialogue will be initiated by the building principal to address the class size. This dialogue will take place within 10 school days of class size exceeding twenty-nine (29) students. If additional concerns continue after such dialogue, discussions will continue with members of the FVEA, building administration, the superintendent, and two members of the BOE. This provision is not subject to grievance by any teacher or the association under the grievance procedures or the collective bargaining agreement.
