

Forrestville Valley School District #221

Superintendent
Sheri Smith

TO: Parents and School District Personnel

FROM: Maintenance Coordinator

SUBJECT: Annual Asbestos Management Plan Notice

The purpose of this memorandum is to inform you of the status of the Forrestville Valley School District #221 Asbestos Management Plan. The Illinois Department of Health and the Federal Environmental Protection Agency have determined that asbestos is a potential health hazard. Therefore, precautions should be taken to avoid disturbing all asbestos-containing materials.

As required, school district buildings were inspected for asbestos in May, 2019. The AHERA law requires a 3-year inspection by qualified personnel and a 6-month visual inspection by school district personnel. Any changes in asbestos-containing areas must be documented in the school district's Asbestos Management Plan.

The Asbestos Management Plan is available for public review in the District Office. If you wish to review the plan, please call to make an appointment Monday-Friday between 8:00 a.m. and 3:00 p.m.

Any concerns regarding asbestos-containing materials should be directed to the Asbestos Coordinator, Forrestville Valley School District at 815-938-2195.
